

Word Problem

Mary had 5 little lambs
Their fleece was white as snow
How many lamb legs are there?
Do you think you know?

They followed her to school one day
Which was against the rules
They sat on 2 stools each
What were the total number of stools?

It made the children laugh and play
To see some lambs at school
They gave them 3 candies each
Can you guess the total number of candies? That would be pretty cool!
